

Muhammad Jawahiruzzaman

Software Engineer

Jakarta, Indonesia | +6285728888280 | m.jawahiruzzaman@gmail.com | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Software Engineer with 3+ years of experience building production-grade applications across healthcare and business domains. Skilled in PHP, JavaScript, TypeScript and Go, with hands-on experience in Phalcon, Vue.js, SvelteKit, and NestJS. Experienced in developing scalable web applications, RESTful APIs, and integrating healthcare systems such as BPJS, Laboratory Information Systems (LIS), and Radiology Information Systems (RIS). Passionate about delivering reliable, maintainable, and user-focused solutions while collaborating effectively within Agile teams.

EDUCATION

Universitas Terbuka <i>Information System</i>	Bogor, Indonesia 2026 - present
Hacktiv8 (95/100) <i>Full-Stack JavaScript Immersive Program</i>	Jakarta, Indonesia 2022-2023
SMKN 2 Sukabumi <i>Software Engineering</i>	Sukabumi, Indonesia 2019 – 2022

WORK EXPERIENCE

PT. Jejaring Tiga Artha (Zi.Care) <i>Full-Stack Engineer</i>	Jakarta, Indonesia June 2023 – Present
- Developed and maintained a production Electronic Medical Record (EMR) system used by healthcare providers using Phalcon and Vue.js. - Designed and implemented new functionalities, troubleshoot production issues, and improved system performance and stability. - Participated in Agile Scrum ceremonies and collaborated with cross-functional teams to ensure timely feature delivery. - Built and maintained integrations with external healthcare systems, including BPJS, Radiology Information Systems (RIS) and Laboratory Information Systems (LIS), to support healthcare interoperability.	
PT. Ginara Solusi Teknologi Nusantara <i>Self Employed</i>	Sukabumi, Indonesia October 2024 – Present
- Developed and published mobile games using Flutter and Flame Engine for the Google Play Store. - Delivered responsive websites, including company profiles and interactive wedding invitation platforms, tailored to client requirements.	
JapiAI <i>Backend Freelance</i>	Sukabumi, Indonesia August 2025 – October 2025
- Designed and developed RESTful APIs using NestJS following Clean Architecture principles to support scalable and maintainable applications. - Integrated WhatsApp (whatsapp-web.js) to automate student progress notifications and improve communication with parents. - Implemented OpenAI API integration to generate personalized progress summaries and actionable insights from student performance data.	
PT. Mitra Sinerji Teknoindo <i>Web Developer</i>	Bandung, Indonesia July 2022 – November 2022
- Developed responsive and interactive web application interfaces using TypeScript, Nuxt.js, and Tailwind CSS. - Implemented GraphQL integrations to optimize data communication between frontend and backend services. - Worked closely with cross-functional teams to transform UI/UX designs and business requirements into production-ready features. - Designed and developed backend services using Golang and PostgreSQL, contributing to the delivery of end-to-end application functionality.	

SKILLS

Language: PHP, JavaScript, TypeScript, Go, Dart.

Front End: Vue.js, SvelteKit, Nuxt.js, React.js, Flutter, Tailwind CSS, Pinia, Redux, HTML, CSS.

Back End: Phalcon, NestJS, Express.js, Gin, Laravel, REST API, GraphQL, RabbitMQ.

Databases & Storage: PostgreSQL, MariaDB, MongoDB, Redis, MinIO.

Tools & DevOps: Docker, Git, Firebase

PROJECTS

WordRush: Charades Party Game

March 2026

Designed, developed, and published a multiplayer charades game on Google Play Store, enabling players to create custom decks, personalize themes, and enjoy real-time party gameplay experiences.

Tech stack: Flutter + Flame Engine, Firebase (firestore)

Tokonek

June 2025

Business and marketplace management solutions.

Tech stack: TypeScript, SvelteJs, TailwindCss, Go, PostgreSQL, MinIo, Gorm

E-Sertifikasi NextGen

October 2022

A website application project from kominfo

Tech stack: VueJs, NuxtJs, TailwindCss, go, PostgreSQL, GraphQL, Gorm, TypeScript
